Experience in developing Rest based web services.

Possess good communication and interpersonal skills.

### **Work Experience**

Wipro Technologies Itd. as Software Developer

Feb 2018 to Till Date

PROJECT:

Project: Leading HealthCare Company in Switzerland

Language Used: Core Java, SpringBoot, Spring Jpa, Spring Data, Restfull WebServices

Database Layer: Cosmos DB

DESCRIPTION OF THE PROJECT: Iconnect is a health Domain project basically meant to administer and link all the Gateways in the market with the Central Gateway. It also provides information about all the IOT Instruments to the Gateways (i.e. the health status of the Instruments). It helps to create Entity, Admin, User and the Gateways. It also monitors all the Admins and reports their activities to the Global Administrator.

ROLE: As a developer, I have worked on creation of gateways, fetching all the data's of the gateways, monitoring the

creation/updating/ deletion of the entities, gateways, instruments, listing all the instruments related to gateways and deleting it if they are not connected, validating presence of the user\_ids, listing all the user, listing all the previous uploaded softwares, sending emails to Admins that should be concerned, deleting/ activating/deactivating the entity and written various test Case scenarios using mockito

#### **Education**
