Work Experience

Wipro Technologies as Project Engineer Feb 2018 to Till Date

Client: Walmart

Project Description: Managing large scale data of Online Grocery of Walmart U.S. and building dashboards for analyzing different Key Performance Indicators.

Responsibilities:

- ? Building data pipeline and ETL flow to load historical and incremental business data from different source systems like Oracle, MySQL to target tables in Teradata.
- ? Writing HiveQL to load data consumed from Kafka to Hive tables.
- ? Writing proper logic and implementing in Teradata SQL to derive different metrics.
- ? Developing Tableau Dashboards to report different Key Performance Indicators as required by business managers.
- ? Scheduling Teradata and Hive scripts by Automic tool for batch processing.
- ? Analyzing and fixing any mismatch in Financial, Operational and Customer Satisfaction related metrics.

- ? Communicating across different teams to ensure meeting SLA of batch.
- ? Deputed in client location (Walmart Global Technology Services, Bangalore).

I am currently serving Notice Period.
